

# minibems app

Minibems App puts an energy billing system into residents' pockets, providing remote heating control and allowing them to manage their energy payments in real-time.

It's available for download from the Apple and Google stores, free of charge for residents. Through the app they can check their balance, view their transaction history, make top-ups, and manage their billing account.

## Features

Minibems App and Touch work in conjunction

Available for Apple iOS and Android
